What I Know About Hardware and Interest.

The laws which regulate interest are similar to those which regulate insurance. The risk of loss determines the rate. Some property can be insured at 1 per cent., some at 2 1/2 per cent.; some at 5 per cent. and some property cannot be insured for less than 10 per cent. Powder houses and oil houses cannot be insured at all. Some citizens of Waco can borrow all the money they want at 5 per cent., others have to pay 16 per cent.; others cannot borrow any money at any rate. An act to regulate the rise and fall of the Mississippi river or the rise and fall of the thermometer, would be no more absurd than an act to regulate the rate of interest or insurance. Our law makers in their great wisdom (?) thought that a 10 per cent. usury law would cause money lenders to run after borrowers and beg them to take their money at a low rate. If any borrower has been overwhelmed with offers of cheap money, the fact has never been made known. No one will pay 15 per cent. for money unless it will cost him more not to borrow, but under the law, loans whose risk is worth more than 10 per cent. cannot be made at all.

I loaned our visiting firemen a large lot of knives and forks and tea spoons for one meal. The knives and forks I offer now at 50 cents a set. The same kind new are cheap at 75 cents. The spoons—heavy triple tinned steel, I offer at 25 cents a set, new ones cost 40 cents. I have just unloaded a car of roofing pitch and tar paper which is used for gravel roofs also to keep moths out of woolens. Remember that I am headquarters for Mason fruit jars and hay baling ties.
